

# PURCHASING BONDS IS NOW AS EASY AS 1-2-3!

The Federal Bonding program has created a new automated portal to modernize how state bonding coordinators and government agencies purchase and request bonds. Below is a quick guide on how to purchase bonds on the new automated system.

1

Go to [www.bonds4jobs.com](http://www.bonds4jobs.com) to create a login and password. Then login with your credentials.

2

Enter the number of bonds you would like to purchase. Each bond carries \$5,000 worth of coverage.

3

Pay by credit card or e-check. Receive a real-time receipt for your purchase.

View your purchased bonds in your account. You now may begin requesting bonds to be issued.
