

# PURCHASING BONDS IS NOW AS EASY AS 1-2-3!

The Federal Bonding program has created a new automated portal to modernize how state bonding coordinators and government agencies purchase and request bonds. Below is a quick guide on how to purchase bonds on the new automated system.

1

Go to [www.bonds4jobs.com/purchasebonds](http://www.bonds4jobs.com/purchasebonds) to create a login and password. Then login with your credentials.

2

Enter the number of bonds you would like to purchase. Each bond costs \$100 and carries \$5,000 worth of coverage.

3

Pay by credit card, or download an invoice and mail in your payment.

Once payment is received, you may view your purchased bonds in your account and begin requesting bonds to be issued.
